Notice Concerning Acquisition of Assets

Japan Rental Housing Investments Inc. (hereafter referred to as the “Investment Corporation”) hereby announces that Mi-Casa Asset Management Inc. (hereafter referred to as the “Asset Manager”), the asset manager of the Investment Corporation, has resolved to acquire the assets described below (hereafter collectively referred to as the “Acquisition”) at the Asset Manager’s investment committee and the board of directors’ meeting held today. Details are provided below.

I. Basic Policy for External Growth

The Investment Corporation contemplates to achieve stable profit distributions in the medium to long term by increasing its asset size and improving its portfolio quality. The Investment Corporation’s strategy is to target properties with an acquisition price of generally at least JPY1 billion that are either located in the Tokyo metropolitan area, with an emphasis on the 23 wards of Tokyo, or are large-scale properties located in other major cities. The Investment Corporation will also aim to improve the quality of our portfolio through selective dispositions of mostly, relative to our current portfolio, older and smaller properties located outside the Tokyo metropolitan area, especially properties with disposition prices of generally less than JPY 500 million.

II. Reasons for the Acquisition and Overview of the Anticipated Properties

The Asset Manager decided on the Acquisition as all of the properties to be acquired are brand new properties constructed in February 2017 and their conditions such as profitability and location (located in central Osaka City) meet the above Basic Policy (1).

With the Acquisition, the asset size of the Investment Corporation is expected to reach approximately JPY 227.2 billion (based on acquisition price (scheduled)) for the 200 portfolio properties with a total of 13,392 units.
