Notice Concerning Acquisition of Assets

Japan Rental Housing Investments Inc. (hereafter referred to as the “Investment Corporation”) hereby announces that Mi-Casa Asset Management Inc. (hereafter referred to as the “Asset Manager”), the asset manager of the Investment Corporation, has resolved to acquire the two assets described below (hereafter collectively referred to as the “Acquisition”) at the Asset Manager’s investment committee and the board of directors’ meeting held today. Details are provided below.

I. Basic Policy for External Growth

The Investment Corporation contemplates to achieve stable profit distributions in the medium to long term by increasing its asset size and improving its portfolio quality. The Investment Corporation’s strategy is to target properties with an acquisition price of generally at least JPY 1 billion that are either located in the Tokyo metropolitan area, with an emphasis on the 23 wards of Tokyo, or are large-scale properties located in other major cities. The Investment Corporation will also aim to improve the quality of our portfolio through selective dispositions of mostly, relative to our current portfolio, older and smaller properties located outside the Tokyo metropolitan area, especially properties with disposition prices of generally less than JPY 500 million.

II. Reasons for the Acquisition and Overview of the Anticipated Properties

The Asset Manager decided on the investment after having comprehensively considered the location of the assets to be acquired, their characteristics as well as the profitability of the properties, and as a result, judged that the properties to be acquired would be an appropriate fit according to the criterion outlined in Basic Policy (1) above.

Based on Basic Policy (2) above, own funds including JPY 1.6 billion of proceeds from the sale implemented in September 2015 of six owned properties (for details, please see the press release “Notice Concerning Disposition of Assets” dated September 15, 2015) will be allotted to funds for the Acquisition.

With the Acquisition, the asset size of the Investment Corporation is expected to reach approximately JPY 211.5 billion (based on acquisition price (scheduled)) for the 195 portfolio properties with a total of 12,698 units.
